

Literacy Standards	T1	T2	T3
Making Inferences: Read closely to determine what the text says and make logical inferences; cite evidence from text when writing or speaking to support			
Main Idea: Determine central ideas or theme of a text; summarize the key supporting details and ideas.			
Parts of a Story: Analyze how and why individuals, events and ideas develop and interact over the course of a text.			
Word Choice: Interpret and analyze words and phrases as they are used in a text, including determining different kinds of meanings.			
Text Structure: Analyze the structure of texts, including how specific sentences, paragraphs and larger portions of text relate to each other and the whole.			
Author's Purpose: Assess how point of view or purpose shapes content and style of a text.			
Pictures and Media: Integrate and evaluate content presented in many diverse media formats.			
Arguments: Delineate and evaluate the argument, specific claims, and evidence in a text, including whether or not reasoning is valid.			
Comparing: Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare and contrast.			
Reading Level: Read and comprehend all kinds of complex texts independently and proficiently.			
Writing: Journaling, Papers, Word Choice, Grammar and Spelling			
Effort			

Comments:

Latin	T1	T2	T3
Recognize the function of Latin words with the context of a passage.			
Apply the Latin declension and conjugation endings.			
Display the understanding of meaning within the context of a Latin passage by answering basic questions about the passage.			
Improve understanding of English words by relating them to their Latin roots.			
Understand basic Roman culture and history and make connections and comparisons to the modern world.

Math Standards	T1	T2	T3
Number and Operations: Classify real numbers as rational or irrational -- 8.1.1.1			
Number and Operations: Compare and order real numbers -- 8.1.1.2			
Number and Operations: Determine rational approximations as solutions to problems with real numbers -- 8.1.1.3			
Number and Operations: Know and apply properties of positive and negative exponents -- 8.1.1.4			
Number and Operations: Use scientific notation and apply it to solving problems -- 8.1.1.5			
Algebraic Functions: Understand and use functions and functional notation --			
Algebraic Functions: Use and define linear functions in different relationships and sequences -- 8.2.1.2, 8.2.1.3, 8.2.1.4, and 8.2.1.5			
Algebraic Functions: Represent linear functions and translate from one to another -- 8.2.2.1			
Algebraic Functions: Identify and define the graphical properties of linear functions -- 8.2.2.2			
Algebraic Functions: Identify how a coefficient changes the equation of linear functions -- 8.2.2.3			
Algebraic Functions: Represent arithmetic and geometric sequences and solve - 8.2.2.4 and 8.2.2.5			
Algebraic Expressions: Evaluate all kinds of algebraic expressions -- 8.2.3.1			
Algebraic Expressions: Justify steps in generating equivalent expressions --			
Algebraic Expressions: Use linear equations to represent situations -- 8.2.4.1			
Algebraic Expressions: Solve multi-step equations in one variable -- 8.2.4.2			
Geometry and Measurement: Use the Pythagorean Theorem and justify it -- 8.3.1.1 and 8.3.1.3			
Geometry and Measurement: Determine distance between two points using the Pythagorean Theorem -- 8.3.1.2			
Geometry and Measurement: Understand and apply relationships between parallel lines and slopes of perpendicular lines -- 8.3.2.1			
Geometry and Measurement: Analyze polygons on a coordinate system --			
Geometry and Measurement: In a coordinate system, find parallel and perpendicular points -- 8.3.2.3			
Data Analysis and Probability: Collect, display and interpret data in scatter plots - 8.4.1.1			
Data Analysis and Probability: Make and use line of best fit statements in various situations -- 8.4.1.2			
Data Analysis and Probability: Assess reasonableness of predictions using scatter plots -- 8.4.1.3
