

Literacy Standards	T1	T2	T3
Making Inferences: Read closely to examine what the text says and make logical inferences; cite evidence from the text when writing or speaking to support conclusions.			
Main Idea: Determine central ideas or theme of a text; summarize the key supporting details and ideas.			
Parts of a Story: Analyze how and why individuals, events and ideas develop and interact over the course of a text.			
Word Choice: Interpret and analyze words and phrases as they are used in a text, including determining different kinds of meaning.			
Text Structure: Analyze the structure of texts, including how specific sentences, paragraphs and larger portions of text relate to each other and the whole.			
Author's Purpose: Assess how point of view or purpose shapes content and style of a text.			
Pictures and Media: Integrate and evaluate content presented in many diverse media formats.			
Arguments: Delineate and evaluate the argument, specific claims and evidence in a text, including whether or not reasoning is valid.			
Comparing: Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare and contrast.			
Reading Level: Read and comprehend all kinds of complex texts independently and proficiently.			
Writing: Journaling, Papers, Word Choice, Grammar and Spelling			
Effort			

Comments:

Latin	T1	T2	T3
Recognize the function of Latin words within the context of a passage.			
Apply the Latin declension and conjugation endings			
Display the understanding of meaning within the context of a Latin passage by answering basic questions about the passage.			
Improve understanding of English words by relating them to their Latin roots			
Understand basic Roman culture and history and make connections and comparisons to the modern world

6th Grade

Math Standards	T1	T2	T3
Number and Operation: Understand percents represent parts and ratios to 100 -- 6.1.1.3			
Number and Operation: Factor whole numbers and determine Greatest Common Factor and Least Common Multiple -- 6.1.1.5 and 6.1.1.6			
Number and Operation: Convert between representations of positive rational numbers -- 6.1.1.7			
Ratios: Identify and use ratios to compare quantities -- 6.1.2.1			
Ratios: Apply the relationship between ratios, fractions and percents to solve word problems -- 6.1.2.2			
Ratios: Determine rate for ratios of different quantities -- 6.1.2.3			
Ratios: Solve ratio and rate problems using multiplication and division -- 6.1.2.4			
Decimals and Fractions: Multiply and divide decimals and fractions and explain or justify methods used -- 6.1.3.1 and 6.1.3.2			
Decimals and Fractions: Calculate percent of a number and that relationship to other numbers -- 6.1.3.3			
Algebra: Understand variables can represent a changing quantity -- 6.2.1.1			
Algebra: Represent the relationship between two variables -- 6.2.1.2			
Algebra: Apply the associative, commutative and distributive properties -- 6.2.2.1			
Algebra: Represent real world problems using variables -- 6.2.3.1			
Algebra: Solve equations involving keeping equality on both sides -- 6.2.3.2			
Geometry: Calculate surface area and volume of prisms -- 6.3.1.1			
Geometry: Calculate area of quadrilaterals -- 6.3.1.2			
Estimate perimeter and area of irregular figures -- 6.3.1.3			
Geometry: Solve problems involving the relationship between angles -- 6.3.2.1			
Geometry: Determine the missing angle in a triangle -- 6.3.2.2			
Geometry: Develop and use formulas for the interior angles of polygons -- 6.3.2.3			
Geometry: Solve problems involving conversion of weights and measures -- 6.3.3.1			
Geometry: Estimate weights and capacities -- 6.3.3.2			
Data Analysis and Probability: Determine probability and sample space of an event -- 6.4.1.1 and 6.4.1.2			
Data Analysis and Probability: Perform experiments to compare relative frequencies -- 6.4.1.3			
Data Analysis and Probability: Calculate probabilities from experiments and represent -- 6.4.1.4
